CONNECT YOUR DONORS TO Immediate Needs

As non-profits move into virtual fundraising to expand their reach and modernize their fundraising programs, critical needs continue to mount.

Your donors may be uncertain how to help. Virtual fund-a-need campaigns give donors a concrete way to make a difference.

Reimagine Your Qtego Tools

We designed our fundraising platform to support your work in dozens of ways—not just at in-person events.

Put your QSite to work!

Your QSite—the personalized bidding website that includes all of your Qtego tools—isn't just for in-person events—use it to take donations virtually! Add images and descriptions to donation amounts to get people engaged with your immediate needs.

Spread the word with Qtego crowdfunding.

Donors want to give back. Sharing your cause with their friends will help them make an even greater impact. Qtego's crowdfunding tools help donors easily share your needs with their social media networks—enhancing your visibility and widening your reach.

Take text donations.

Fill needs instantly with Qtego's text donation feature. All your donors need to do is text GIVE and an amount to help you keep serving your mission.

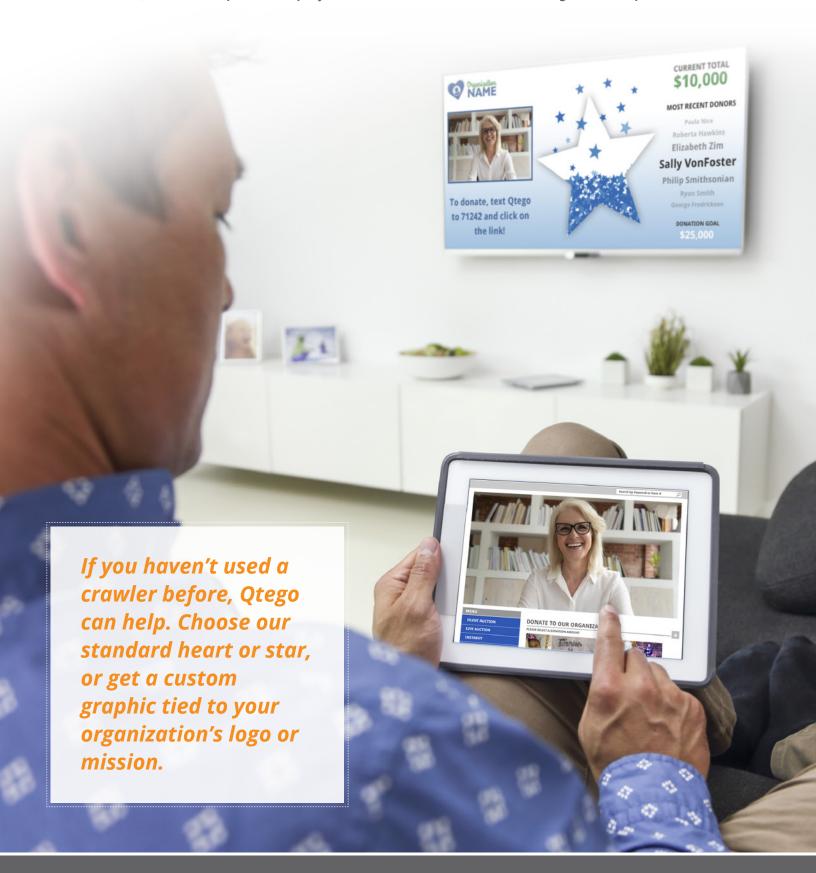

Get creative with Instabuy.

You may have used Instabuys at fundraising events for wine pulls, gift card grabs, and golf mulligans. Now you can also use the Instabuy feature to connect people to specific needs. Tie donation amounts to the real work you do, and your most pressing priorities.

Don't Forget Your Crawler!

Have a custom graphic to track donations at your in-person events? Use it as part of your virtual fund-a-need! Donors can watch their donations making a difference in real time from their desktop or tablet, or use their phones to project the crawler to their TV for the big screen experience!

As you upgrade your fundraising model, Qtego is here to help.

All non-profits—regardless of size, type, or location—can reach out to donors and build engagement better with Qtego's virtual fund-a-need tools.
