

Make ANY Fundraising Event MORE Interactive with Qtego Chat

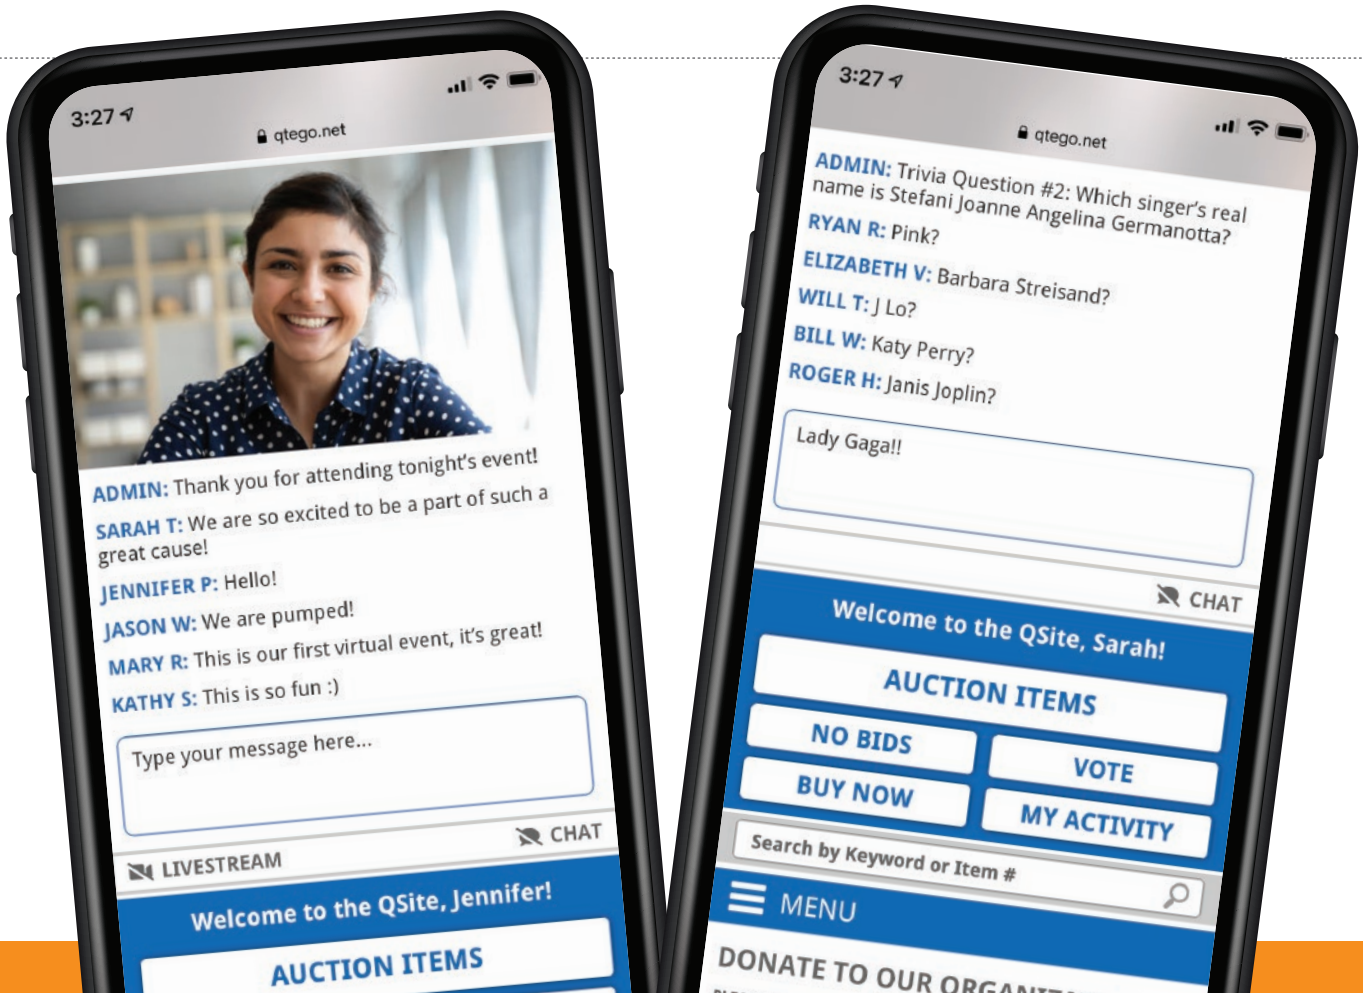

Want to get your guests more involved with your event? Whether they attend in-person or via livestream, use Qtego Chat to keep your guests active and engaged from start to finish.

Designed to operate just like familiar social media commenting, but built-in to your QSite—the place where guests go to bid, donate, vote, and/or watch your livestream—Qtego Chat helps guests feel like part of the action throughout your event.

How Qtego Chat Works

- 1 Qtego Chat uses the guest's first name and last initial based on his or her initial registration—so guests maintain privacy and don't have to create another account.
- 2 Event managers can monitor Qtego Chat and jump into discussions from the Dashboard in real time.
- 3 Qtego Chat is easy to add to your QSite. It's always an option—with or without a livestream, auction items, voting, donation tracker, or other elements. It works for in-person events, livestream events, and any combination of the two!

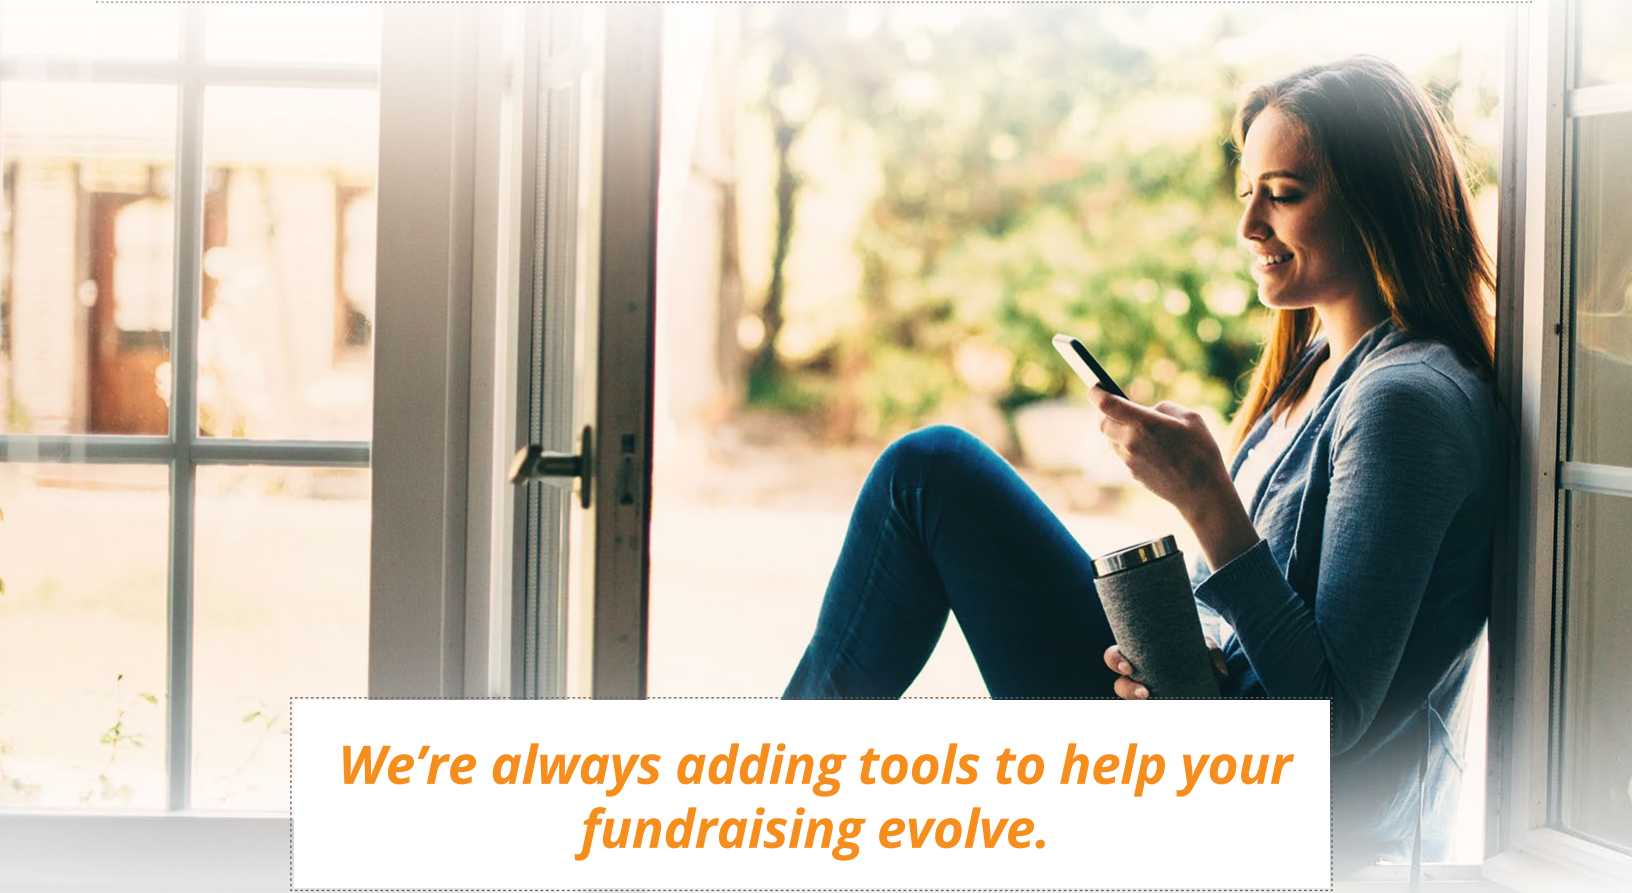

Ideas for Using Qtego Chat

Use Qtego Chat for trivia questions to get guests involved in a little friendly competition.

Use Qtego Chat for a poll—fun or serious—and let guests feel heard.

Use Qtego Chat for games. Ask a question and offer the first ten people who post an answer in the Chat a free raffle ticket or prize!

We're always adding tools to help your fundraising evolve.

From brainstorming to troubleshooting to remote event service, Qtego is part of your team. We combine technical savvy with expert creativity to help you raise more money in new and innovative ways.
