You sell tickets for your in-person event. Now you can sell them for your virtual guests, too.

With Qtego, it's easy to create a sophisticated livestream fundraising event that keeps guests engaged and helps you raise more money. With Qtego's secure virtual ticketing you get all the benefits of a livestream without losing ticket revenue!

- ✓ **Avoid selling out your event**
- ✓ **Expand past venue space limitations**
- ✓ **Invite guests from out of the area**
- ✓ **Include guests who are older or high-risk**
- ✓ **Stop worrying about bad weather**
- ✓ **Stay compliant with health regulations**

Virtual ticketing makes your livestream more exclusive, and gives you all new options for your fundraising events.

How Qtego Livestream Ticketing Works

- 1** Your guests purchase a ticket to your exclusive livestream event.
 -  Offer tiered pricing if you have a livestream and an in-person option for the event
 -  Give guests the option of adding a small percentage to help offset admin fees
- 2** E-ticket receipts include a one-use, non-shareable code to access your livestream, which they use to register with Qtego and view your event.
- 3** Guests get streamlined, one-click access to your event without having to create additional accounts, download anything, or keep track of multiple links.
